Korben SmartClean Pro

Your smart vacuum cleaner for uncompromising cleaning!

The **SmartClean Pro** is revolutionizing industrial and commercial cleaning with its cutting-edge technology. Designed to **sweep, vacuum, filter dust, and collect debris**, it delivers **unmatched performance** on all floor types, even in the most demanding environments. With an impressive cleaning capacity of **7000 m² per hour in intensive mode** and an endurance of up to **8 hours**, the SmartClean Pro stands out for its **efficiency, durability, and reliability**.

Thanks to its **intelligent mapping system** and **edge-cleaning precision**, it perfectly meets the needs of **factories, warehouses, shopping malls**, and other high-traffic areas.

Choose the **SmartClean Pro** for a **powerful, long-lasting, and environmentally friendly** solution.

Key Benefits

High power suction motor

Effectively handles a wide range of debris, from fine dust and sand to larger materials like paper scraps, bottles and even wood chips.

Autonomous charging

Supports 24/7 continuous operation.

Effective dust control

Prevents airborne particles by capturing fine dust securely in the trash bin through advanced negative pressure and filtration.

Track clearance of 750 mm

Deftly navigates narrow aisles with 750mm track clearance, providing smooth operation in tight spaces.

High capacity trash can and battery

Equipped with a large 45L trash can and a durable battery with a runtime of 5 -8 hours.

Zero Distance Edge Cleaning

Delivers zero-distance cleaning along edges, ensuring no gaps are left behind.

Product Characteristics

Size (L*W*H)	960×650×680 (mm)
Autonomy	5 - 8h
Charging Time	2.5h
Max Air Flow.	1,320 m /h
Gradeability	8°
Minimum Passage Width	750 mm
Max Cleaning Speed	1.2 m/s
Garbage Bin Size	45L
Edge Cleaning Capacity	0 mm

Advanced navigation

40-beam 3D laser

Mapping and localization using a 40-beam 3D laser, ensuring robust and reliable operation in harsh environments, whether in low light conditions, high dynamic areas or open spaces.

750 mm cleaning width

Reaches up to 2,000 m²/h in normal sweeping mode.

Unmatched productivity

Spot Cleaning Mode

Proactively detects and collects waste using an RGB camera and AI algorithms, achieving a maximum efficiency of 7000m²/h and covering over 40,000 m² in one night.

40000 m²
COVERAGE IN ONE NIGHT
